[Revolution Void](#) is a project by producer and jazz pianist Jonah Dempcy, mixing jazz and breakbeat. You may remember acclaimed musicians who decided to produce drum and bass, and it turning out as complete garbage: nothing there for jazz fans, nothing there for drum and bass fans. Increase the Dosage, however, combines breakbeat and melodic electronica in a charming way that makes for something not only worth listening to, but also something you'll keep coming back to for years to come.

With bass by Matthew Garrison, sax by Seamus Blake and Darryl Estes, and guitars by Nicolas Manel, there's a lot of serious musicians contributing some excellent material to the album. This, and careful production, makes Increase the Dosage an exceptional package.

Performers:
